Workshop

Specification and Implementation of Dynamic Security Policies (DYSP)

To be held in the framework of the International ACM Conference on Management of Emergent Digital EcoSystems (MEDES 2010)

October 29, 2010 Kasetsart University, Bangkok, Thailand

The digital ecosystem exhibits self-organizing environments, thanks to the re-combination and evolution of its "digital components", in which resources provided by each entity are properly conserved, managed and used. Within this framework, it becomes crucial to be able to express and implement Dynamic Security Policies to control the access and the use of these resources. Dynamic security policies include the specification of contextual access and usage control rules, policy reconfiguration rules and context monitoring rules.

Topics include but are not limited to:

- Contextual security policy specification and implementation for collaborative and distributed applications, mobile applications, e-commerce and business applications, P2P networks, social networks, distributed databases, Workflows
- Context based access and usage control model
- Context monitoring
- Dynamic security reconfiguration
- Digital Rights Management
- Trust and reputation
- Security policy analysis method
- Risk based security policy

Organizer: Alban Gabillon, Université de la Polynésie Française, French Polynesia.

Program Committee

Vijay Atluri, Rutgers University, USA  
Hakima Chaouchi, INT Evry, France  
Nora Cuppens, ENST-Bretagne, France  
Frédéric Cuppens, ENST-Bretagne, France  
Sabrina De Capitani di Vimercati, Università degli Studi di Milano, Italy  
Csilla Farkas, University of South Carolina, USA  
Yücel Saygin, Sabanci Universitesi, Turkey  
Vijay Varadharajan, Macquarie University, Australia  
Duminda Wijesekera, George Mason University, USA

Important Dates

Paper Submission Deadline (Extended): September 15th, 2010  
Notification of Acceptance: September 30th, 2010
Workshop Proceedings will be published by ACM and indexed by the ACM Digital Library and DBLP

Paper preparation and submission

Papers should be submitted in electronic form (PDF) using EasyChair (http://www.easychair.org/conferences/?conf=medes10).

The ACM format descriptions can be found here: http://www.acm.org/sigs/publications/proceedings-templates.

The length of papers is restricted at eight (8) pages.
