Call for Demonstrations and Industrial Papers

The International ACM Conference on Management of Emergent Digital EcoSystems (MEDES 2009)

Technically sponsored by ACM SIGAPP, ACM SIGAPP.fr Chapter, IEEE France & IEEE SMCS

with the cooperation of IFIP WG 2.6

<http://sigappfr.acm.org/medes>

October 27-30, 2009

Lyon – France

Description and Objectives

The International ACM Conference on Management of Emergent Digital EcoSystems (MEDES) aims to develop and bring together a diverse community from academia, research laboratories and industry interested in exploring the manifold challenges and issues related to the resource management of Digital Ecosystems.

The conference seeks to address how current approaches and technologies can be evolved and adapted to this end and will include an informative and interactive session for the presentation of demonstrations and industrial papers describing original industrial applications, experiences and challenges.

Proposals should be focused on the conference topics and related techniques.

Topics

We solicit demonstrations and industrial proposals related but not limited to the following topics:

- Digital Ecosystem Infrastructure
- Web Technologies
- Social Networks
- Data & Knowledge Management Systems
- Multimedia Information Retrieval
- Ontology Management
- Services systems and Engineering
- E-Services, E-Learning, E-Humanities and E-Government
- Emergent Intelligence
- Game Theory
- Networks and Protocols
- Security & Privacy
- Standardization and Extensible Languages
- Human-Computer Interaction
- Business Intelligence
- B2B, B2C, B2A, E-Commerce, E-Business, E-Marketing and E-Procurement
- Digital Library
- Open Source

Demonstrations and Industrial Proposal Submissions

Submissions must follow ACM format guidelines and must be uploaded in PDF format using the conference website.

Proposals must be no more than four pages long. This page limit includes all parts of the paper: title, abstract, body, and bibliography.

Submissions will be peer-reviewed by at least 2 peer reviewers.

Selection criteria will include relevance, significance, impact, technical soundness, and quality of presentation.

At least one author should attend the conference to present the proposal.

Accepted proposals will appear in the final proceedings of the main conference published by ACM and indexed by the ACM Digital Library.

Demonstration proposals must clearly describe what will be demonstrated, how the contribution will be illustrated interactively and how the audience will interact in order to understand the concepts being demonstrated.

Optionally, proposals can include a URL that shows a preliminary version of the demonstration such as screenshots or another interactive program.

Important Dates

- Demo and Industrial Proposal Submission: July 31, 2009
- Notification: September 5, 2009
- Camera Ready Proposals Due and Registration: September 15, 2009
- Conference Dates: October 27-30, 2009

Committees

General Chair

Nicolas Sphyrtos, Paris-Sud University, France

Program Chairs

Epaminondas Kapetanios, University of Westminster, UK

Agma Traina, University of Sao Paulo, Brazil

Workshops Chairs

Yinghua Ma, University of Jiaotong, China

William I. Grosky, University of Michigan-Dearborn, USA

Tutorial Chair

Dominique Laurent, University of Cergy-Pontoise, France

Publicity Chair

Ghislain Sillaume, CVCE, Luxembourg

Local Organizing Committee Chairs

Nicolas Lumineau, Lyon 1 University, France

Cecile Favre, University of Lyon2, France
